Colorful Mihara Town Walk (Girl's Day Festival)

Main event: 2/29 (Sat) and 3/1 (Sun)

Location: Around the JR Mihara Station

The stone "hina" dolls
made at the workshop
will be on display!

Many Girl's Day "hina" dolls will be displayed around the JR Mihara Station. The approximately 1,000 stone "hina" dolls created by Mihara City's children and others, will be lined up with shrine and temple stone steps serving as their platforms.

A photograph of these individualistic and cute dolls, each with their own unique expression, is undeniably Instagram-worthy!
